

UID Data Capture

- ◆ UID Capture
 - WAWF
 - Fixed price
 - Cost type
 - Third party shipping
 - Other collection scenarios
 - Reporting of component UIDs
 - Charge Card
 - Non-contractual acquisition
 - Internal DoD (Depot) marking
 - Other government agency marking
- ◆ UID Data Retrieval
 - DoD Registry development
 - Registry access rules
 - Use of third party UID-equivalent registries

UID “Pedigree” Data

End Items

- ◆ UID (Concatenated) ○
- ◆ Descriptive Data
 - UID Components (5)
 - Item Description
 - Unit of measure
- ◆ Acquisition Data
 - Contractor
 - Contract Number
 - CLIN/SLIN/ELIN
 - Price
 - Acceptance Code (identifies acceptor)
 - Acceptance Date
 - Ship to code

Components of End Items

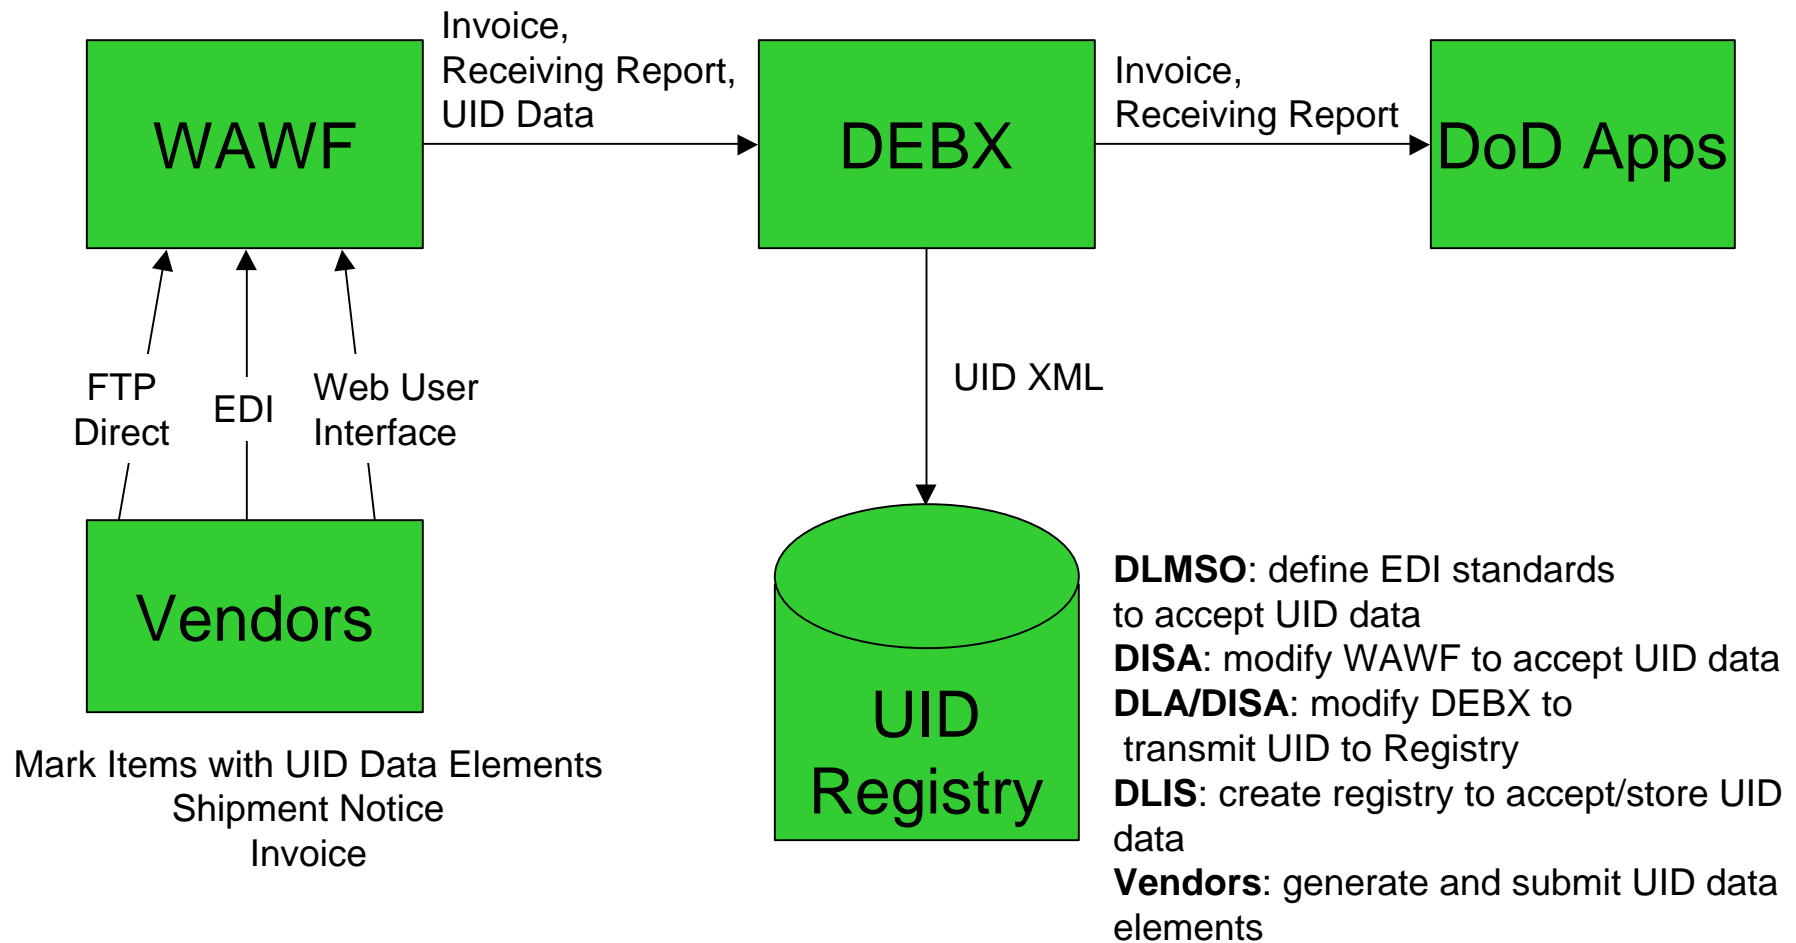

- ◆ UID (Concatenated)
- ◆ Descriptive Data
 - UID Components (5)
 - Item Description
 - Unit of measure
- ◆ Parent UID as of delivery date ○

Item Tracking (TBD)

- Current parent
- “As of” date

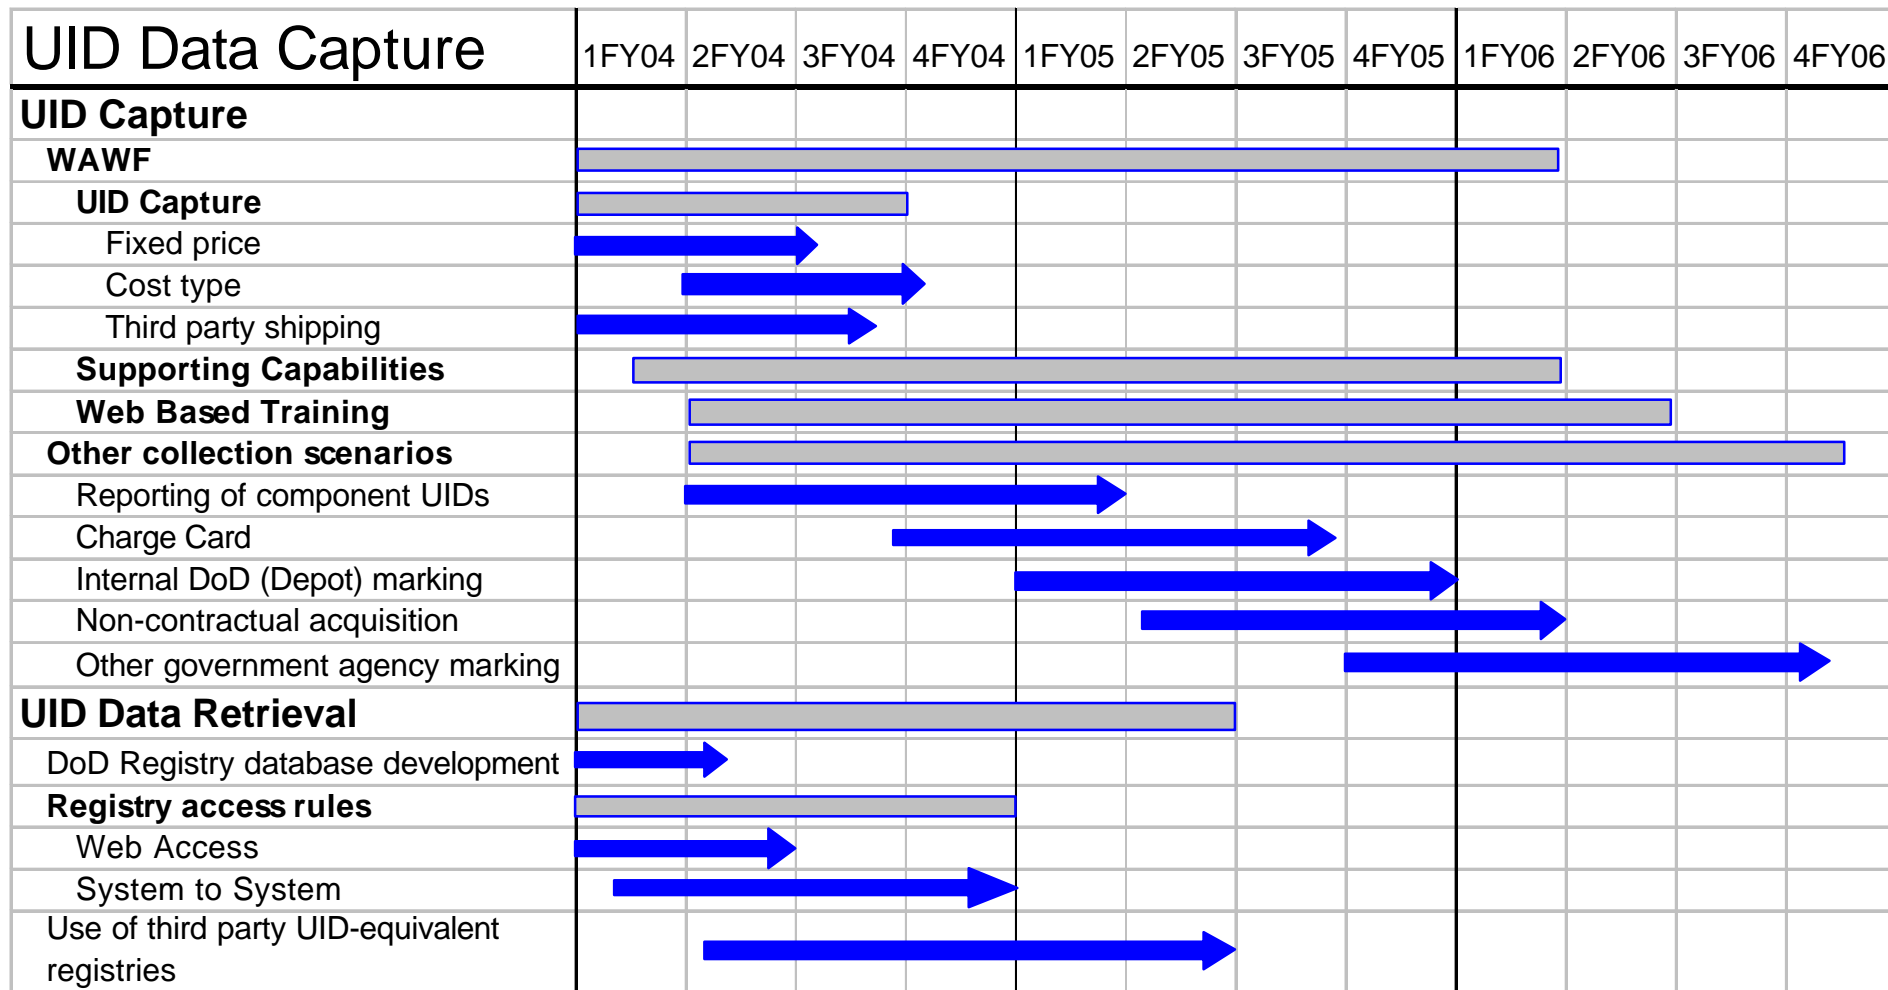

UID Capture and Use

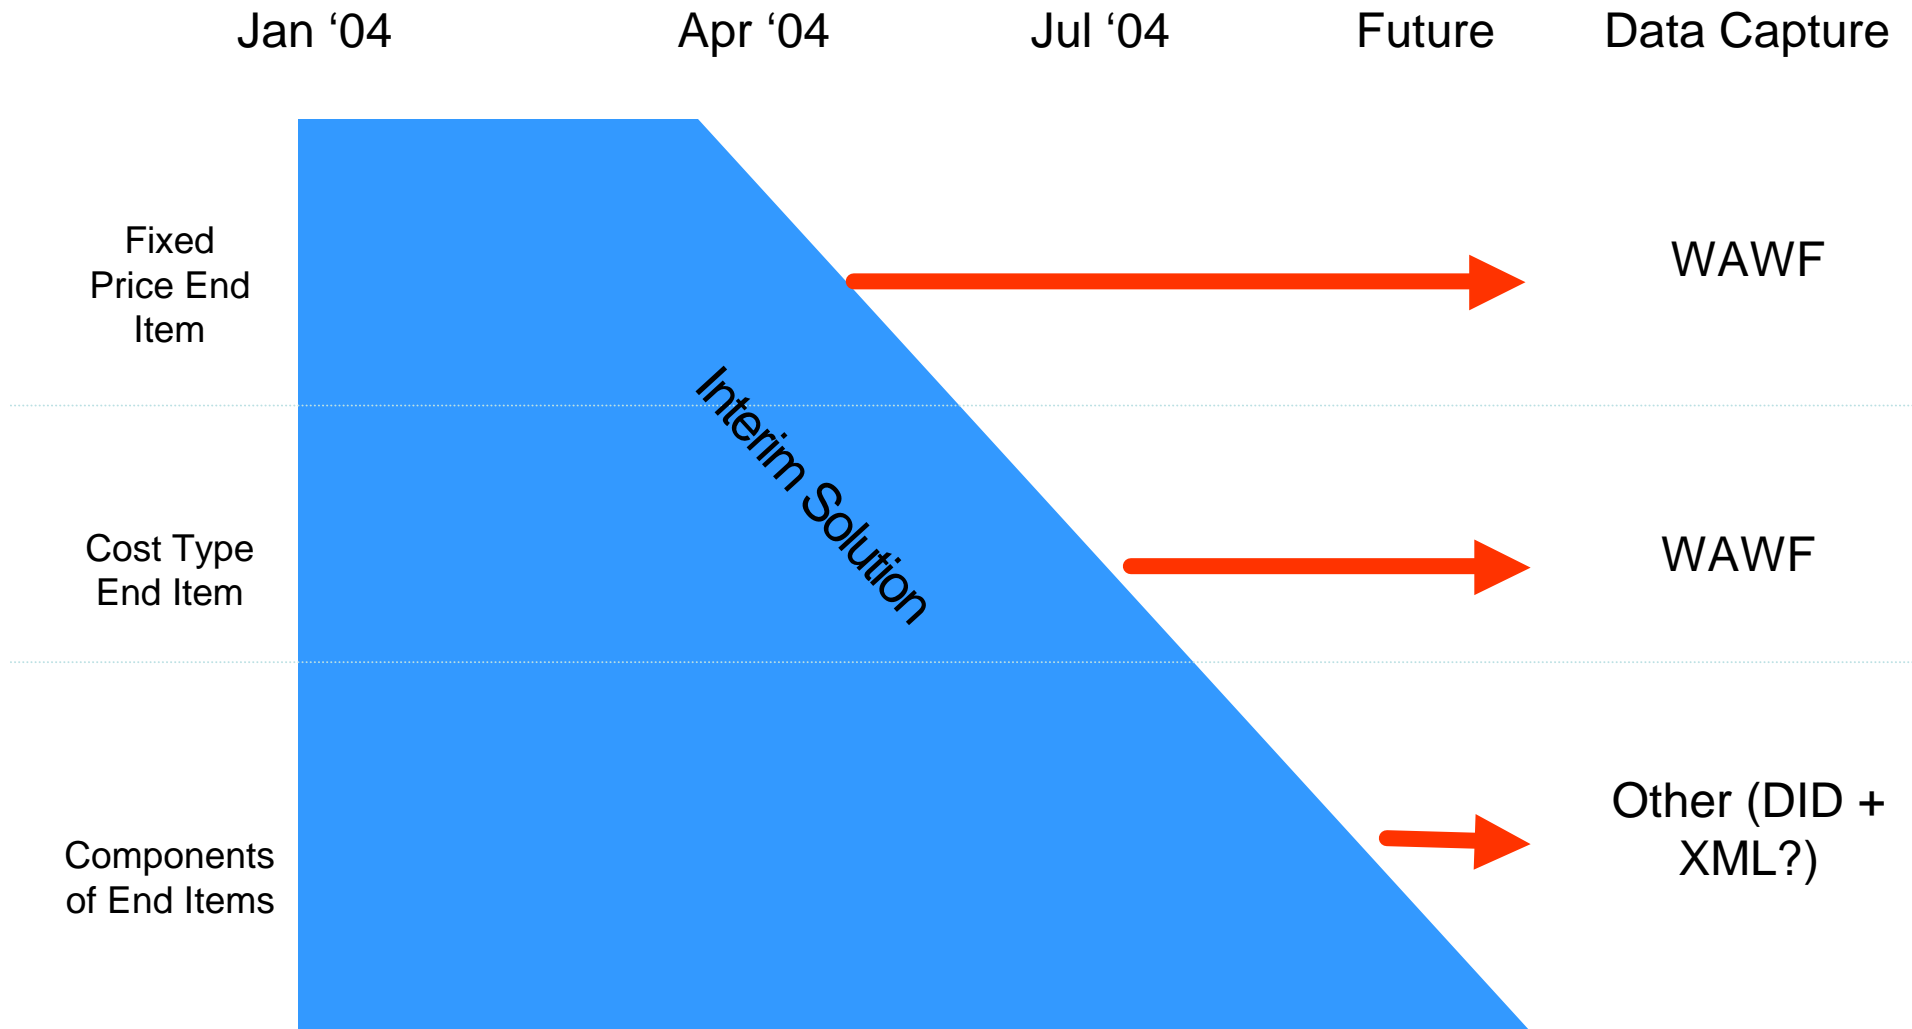

UID Data Capture Schedule - DRAFT

UID Timeline Considerations

Interim Solution for UID Submission - DRAFT

- ◆ Current project schedule
 - WAWF will not be ready to accept UID data until May, 2004 (for fixed firm price, end items)
 - DFARS case requires item marking and submission of UID beginning with solicitations issued after January 1, 2004.
 - Interim guidance is for vendors to submit the UID data elements during the interim period.
- ◆ Three alternatives for submission
 - Complete Excel spreadsheet and submit through WAWF
 - Complete Excel spreadsheet and email to acceptor
 - Complete XML and transmit to acceptor
- ◆ Spreadsheet and guidance will be posted to UID website before January 1, 2004.

UID Capture and Use – Interim DRAFT
